			(X) Total Construction Value:			
			(Y) Divide (X) By 1,000 And Round Down To Nearest Thousand			
			(Z) Multiply (Y) Times \$1.00 Or Enter \$25 If Result Is Less Than \$25			

Multiply the square feet of a particular structure by its applicable "Construction Value Per Square Foot". If multiple structures are to be covered under this permit application, add the results of each calculation together to derive the total Construction Value. Use the Permit Fee Table to calculate the fee.
