Assessment Reduction Rationale: Using the Cuba land rate tables and applying the 2.0 residual acres results in an assessment of \$3,400. We consider the Cuba land rate tables to be invalid because they do not represent the ORPS and NYS Ag and Markets land valuation in this RAR and as a result believe strongly that Portville's land rate table is valid at \$2,100 versus \$3,400. All land should be reclassified as residual.
